

PROFESSIONAL INSTALL RANGE

The B-Tech professional range includes flat screen mounts, System 2, professional projector mounts, exhibition mounts, professional install security fasteners and professional install cables.

The comprehensive range of professional AV mounts is one of the most versatile in the industry. The mounts in this range use heavy gauge steel and are designed for a simple and secure installation. B-Tech professional mounts have been used in some of the most prestigious sports stadia, airports, hotels, schools and government offices worldwide.

B-Tech's broad range of professional flat screen mounts offer solutions for both VESA and non-VESA screens and can support screens up to 60" in size and 70kg in weight, and the professional projector mount range includes an extensive range of mounting solutions for LCD and DLP projectors.

B-Tech International is proud and privileged to have been chosen to supply the mounts and supports for the fitting of LCD and Plasma Screens throughout the All England Lawn Tennis Club, Wimbledon, London, England.

On any installation it's important to have a strong, reliable, and easy to install system. With products designed with this attention to detail and with B-Tech offering excellent value for money, B-Tech ticks all the boxes. These benefits were a key reason why Wimbledon as well as other major sporting and commercial facilities across the World have chosen B-Tech.
