

B-Tech offer an extensive range of flat screen mounts designed to support small, medium and large screens using both VESA and non-VESA mounting patterns. B-Tech flat screen wall mounts can be used to securely mount screens up to 72" in size and 113kg in weight.

The range includes fixed to the wall and tilting mounts, and mounts with both single or dual articulated arms. Flush to the wall mounts can mount a screen as close as 17mm from the wall for the ultra slim look suited to the latest range of flat screens.

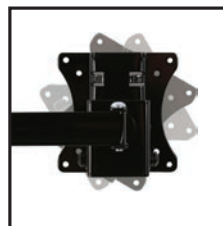

Other features include easy tilt of up to 30° up or down and 360° rotation allowing a screen to be rotated and to display the screen in landscape or portrait style.
